PARTNER SPOTLIGHT

Hammock Home Builders

Plan Better. Build Better. Live Better

In the heart of the vibrant coastal town of New Smyrna Beach, Florida, Hammock Home Builders constructs luxury homes with cutting-edge technology. This valued PGT partner operates in the backdrop of a thriving arts and culture scene with a gorgeous shoreline just minutes away. Each luxurious home they create stands as living proof of Hammock’s unwavering dedication to quality craftsmanship, modern technology and state-of-the-art building techniques.

Emblematic of this commitment to excellence is Hammock’s meticulous attention to details that bring beauty, function and comfort to each home they envision. Case in point: among the standard design features for their homes is a wide array of PGT WinGuard vinyl products.

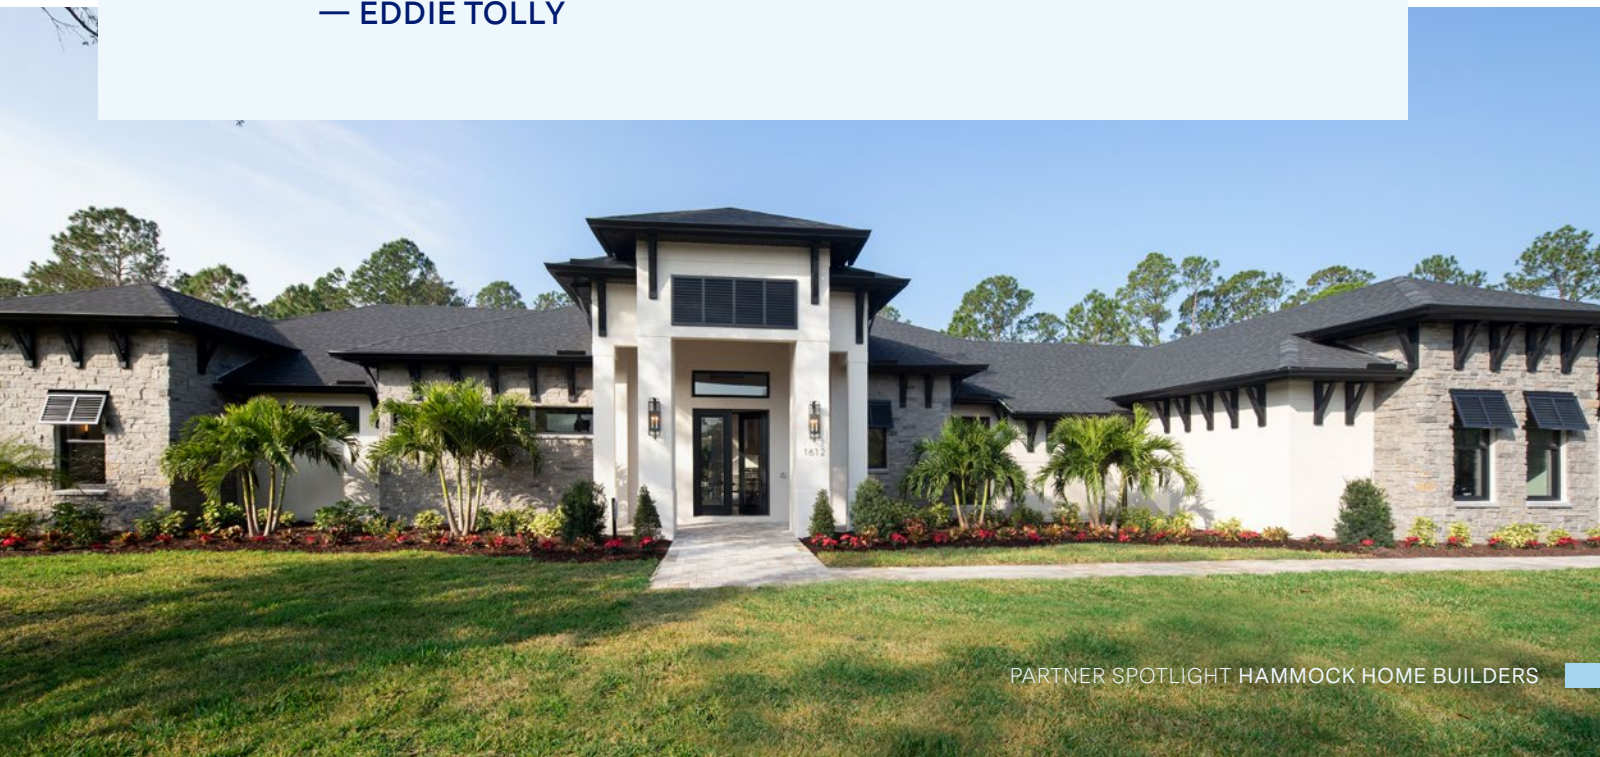

“What stands out with PGT is that – it’s quality, it’s consistency, it’s reliability,” says superintendent for Hammock Home Builders Eddie Tolly, adding that he appreciates the creative freedom that PGT custom products provide him and his award-winning team.

What stands out with PGT is that – it’s quality, it’s consistency, it’s reliability.

— EDDIE TOLLY

Showcased here is their Hammock plan, a model home located at Turnbull Crossings with 2,600 sq. ft. of living space, which includes a living room, dining room, a den, a master bedroom and a guest suite that opens to a lovely courtyard with two lanais.

Creating stunning views, PGT WinGuard Vinyl windows and doors invite the outdoors in to

enhance the Hammock living experience while offering Always On Protection against the elements, security and energy efficiency. “PGT just completely met our needs,” Tolly explains. One of the key necessities for this region is hurricane protection and PGT’s impact windows are up to the task — this includes providing top-quality windows and doors to the homes that are close to the shoreline.

A marble-clad kitchen and dining area beckons natural light with sliding glass doors that provide a glass-wall look, expanding the living space to the outside. Abundant natural light here and throughout the home makes a winning impression on potential homebuyers when they walk through the models.

“Almost all our clients always say, ‘Wow! Look at all these windows – all the natural light. Look how pretty, look how wonderful,’” Tolly tells us. According to him, one of the biggest benefits when it comes to PGT Windows, is the freedom awarded to the designers and contractors to be creative.

Wide casement picture windows complete the ambiance to match the relaxing energy of the deep, free-standing tub while our classic single-hung window adds a glimpse of tropical foliage to the bathroom's dual vanities.

We're proud to partner with Hammock Home Builders to bring breathtaking elements of style and peace of mind to every home they build. Given that timeliness and availability are crucial in this industry, PGT strives to provide Hammock Home Builders with fast turnaround time and ongoing support.

“PGT is right in line with our values and our mission – they help us get our job done,” says Tolly. Their goal is to build houses of the highest quality. Our mission is to provide the highest quality windows and doors. Together, we create homes that can last for generations.
